

SOUTHERN AFRICAN FAITH COMMUNITIES' ENVIRONMENT INSTITUTE

FLEAT Malawi III: *Cage-Free Session*

13 May 2026

A refresher on why we do this work

In line with SAFCEI's faith approach, how humans relate to fellow sentient beings, we believe that egg laying hens should be treated with compassion and kindness. Campaigns to stop businesses from caging hens also creates an opportunity to educate faith communities on animal welfare.

Campaign updates since we last meet

- Corporate engagement: aim to get major retailer or restaurant.
Progress and challenges
- Awareness
- Actions on the ground
- Intersectionalities; ***Who Rules the Roost? Webinar with GRAIN***

No Faith in False Solutions

What does your faith say about animal welfare?

**What do you remember from previous
present on cage-free?**

What actions have you taken regarding the caging of hens since we last met?

What cage-free actions would you have liked to take but could not. Which challenges did you face?

Which actions could you take in Malawi going forward in terms of local actions or around policy? What would be necessary?

THANK YOU
